In 1992, Shunde Chang Fong was invested by Taiwan Chang Feng which was founded in 1971. Shunde Chang Fong is specialized in design, R&D, dyeing, knitting, finishing, garment making and etc. During 15 years running, we have successfully made ourselves an appointed fabric and garment supplier for famous brands around domestic and overseas. After 30 years operation, we have accumulated much experiences and knowledge in textile industry. In 2002 high-tech textile department has been founded and it has a Class 1 clean room which covers 900 square meters. Following knitting, fining and cutting, the clean room integrates washing, dying, quality checking, folding and vacuum packing into a connected process thus making our company the only producer of wiper for clean room in China. Parent company, Chang Fong Textile Technology Co., Ltd., has successfully developed the Rubbing Cloth for 6th generation TFT-LCD panel procedure. This invention has been approved by industry bureau and economy department, which are actively promoting leading new products development. So far, our invention has been used by all Taiwan major panel producers and has showed good performance. Consequently this result has broken the myth that Japanese producer is the only one in this industry. .
